FAQ:

Q: Will my team still have photos taken if we don't Pre-Purchase?

A: Maybe. I will only shoot teams that have purchased a 1, 2 or 3+ game packages. However, I will still capture photos of their opponents while I am at the game, even if they have not pre-purchased. Those photos are available to purchase individually, in a bundle or go in with your team to purchase them all for best value!

Q: How long do we have to Pre-Purchase?

A: Until the beginning of the tournament. Any purchase request after tournament begins is subject to availability. 3+ game packages usually sell out, even before the tournament, so the sooner the better.

Q: I pre-purchased, how do I share photos with my team?

A: You will receive a Download PIN. Share the PIN with your team. Individuals can download their own photos using the PIN. Only with a PIN can someone download the photos.

Q: Do you capture Semi-Finals and Finals?

A: Only pre-purchased teams will have Semi-finals captured. All teams regardless of purchase will have medal games captured.

Q: How long are photos available online?

A: Photos are usually available online for a month and a half following the tournament. Plenty of time to view and download your photos.

Q: Can our team purchase the full package after the tournament?

A: Yes. You will receive all photos in your team's gallery. You just miss out on the Pre-Purchase Discount and Perks
